

December 2022

The YMCA of Douglas County Board of Directors held a meeting to discuss the rate structure for the YMCA. The Board adopted a modest fee increase to help cover costs associated with providing services to our members.

Over the years the Board has strived to keep rates as low as possible; the last membership rate increase for all membership types was in 2012. However, we are experiencing increased costs in all areas, including utilities, dues, fees, supplies, insurance, and mandatory wage increases.

Effective January 1, 2023, membership rates will increase \$3 for individual memberships, \$4 for family and group memberships. Those paying in advance prior to January 1, 2023, for their memberships will pay the 2022 rate. All new, and renewing memberships after January 1 will have the new rate.

Thanks to our generous donors, the Y will continue to offer financial assistance for qualified members. Find out more by visiting our website at: [ymcaofdouglascounty.org/membership](http://ymcaofdouglascounty.org/membership) or inquire at our membership desk.

We hope this helps to explain the need for the rate increase. Thank you for your continued support and dedication to YMCA as we continue to help grow strong kids, strong families, and strong communities.

Please feel free to reach out if you have questions.

Sincerely,  
YMCA Board of Directors
